

NEW

Transformer 48V

Ebeco introduces a new improved transformer with several new features.

EBECO 

NEW AND IMPROVED

Transformer 48V

Product information

Transformer is short circuit proof and protected against overload, equipped with;

- In-rush current limiter.
- Miniature circuit breaker (MCB), manual resetting
- Thermal fuse, self-resetting

Technical specification

Nom. Voltage, Input:	230 Vac
Frequency	50-60 Hz
Nom. Voltage, Output:	See table Product range
Test/insulating voltage:	4 kV AC RMS
Construction class:	II
Insulation Class: (thermal fuse, cut-out 130°C)	B
Ambient temp:Tmax	25°C (power on)
Degree of protection:	IP41
Color of enclosure:	(Anthracite) RAL7021
Surface finish:	VDI 33

Product range

Article number:	Input (Vac)	Output: (Vac)	Power: (VA)	Dimensions: HxWxD (cm)	Weight: (kg)
52 070 11	230	48	250	20,5 * 13,5 * 7	3,3
52 070 13	230	48	350	20,5 * 13,5 * 7	3,7
